30■Day AI Persona Income Sprint Plan

2–4 Hours per Day • Fast■Track to First $1K–$2K • Built for Enidkimberly

This is a practical, no■waiting plan to launch and grow your AI persona income system in 30 days. We combine immediate posting with continuous learning, so you earn while you iterate. The daily blocks assume 2–4 hours.

Weekly Targets (KPIs)

Week	Focus	Posting	Targets
Week 1	Setup + First Posts	1–2 posts/day	10–15 images, 5–7 posts, 0–5 subs
Week 2	Consistency + Hooks	2 posts/day	50–200 followers, 1–10 subs
Week 3	Optimization + Offers	2 posts/day	10–30 subs, 0.5–1% conv.
Week 4	Batching + Mini■Collection	2 posts/day	30–60 subs, $100–$300

Daily 2–4 Hour Breakdown

60–90 min: Generate/curate visuals • **30–45 min**: Edit short video (CapCut) • **20–30 min**: Captions/hashtags • **20–30 min**: Post to 2–3 platforms • **20–30 min**: Engage (DMs/comments) • **10–15 min**: Track results

Day■by■Day Plan

Day 1 – Identity & Accounts

- Pick niche (Luxe | Gamer | Traveler) + name + backstory; define SFW/NSFW boundaries.
- Open TikTok, Instagram, Reddit, X; create Fanvue/Patreon page (1 tier: $5–$10).
- Create folder structure on Drive: /Persona/Images, /Videos, /Captions, /Analytics.
- Draft 10 starter prompts for consistent look (face, hair, lighting, wardrobe, vibe).

Day 2 – First Images & Bios

- Generate 10–15 images; shortlist 5; basic touch■ups if needed.
- Write bio + pinned post + link■in■bio; set pricing & welcome message.
- Post 2 items (1 image carousel, 1 short reel).

Day 3 – Content Engine v1

- Create 2 short videos (10–20s) from images using CapCut.
- Post on 2–3 platforms; reply to comments to boost early reach.
- Create a simple tracking sheet (posts, views, follows, clicks, subs).

Day 4 – Style Lock■In

- Review early metrics; pick best■performing style (poses, outfits, color).
- Draft 3 theme sets (e.g., ‘Soft Glam’, ‘Cozy Gamer’, ‘Beach Sunset’).
- Post 2 items; test 2 caption styles and 10–15 hashtags.

Day 5 – Reddit Funnel

- Identify 5 subreddits aligned to niche; draft non■spammy value posts.
- Create 1 video + 1 image post; soft CTA to ‘see more’ on paid page.
- Document comments that trigger curiosity; reuse them as hooks.

Day 6 – Batch & Schedule

- Generate 20 images; select 10; prepare a 7■day content queue.
- Write 7 caption variations with CTAs; prepare scheduling (manual or Buffer).
- Post 2 items; engage 20–30 mins.

Day 7 – First Drop (Paywall)

- Package 10 exclusive images as ‘Drop #1’ behind paywall.
- Post teasers everywhere; welcome message to new subs with thank■you note.
- Weekly review: what worked, what to double down on next week.

Day 8 – Hook Testing

- Craft 5 new opening hooks for videos (first 2 seconds).
- Post 2 short videos with different hooks; note retention changes.
- Add ‘New Drop #1 live’ banner to bios.

Day 9 – Cross■posting System

- Create a simple cross■post template (caption + tags + link variants).
- Post to 3 platforms; respond to 10+ comments thoughtfully.

Day 10 – Thumbnails & Titles

- Design 6 thumb styles (close■up, over■the■shoulder, text overlay).
- A/B test two thumbnails on similar clips; track CTR difference.

Day 11 – Storytelling Captions

- Write 5 mini■stories (romance/adventure/gamer moment) as captions.
- Post 2 items leveraging story captions + CTA.

Day 12 – Offers

- Create a limited ‘Founders’ offer: first 20 subs get 10% off / bonus set.
- Post teaser + short; measure conversion uplift.

Day 13 – Community Seeds

- Start a themed thread on Reddit/X (ask a question or share behind■the■scenes).
- Engage 30 mins; collect FAQs for future captions.

Day 14 – Weekly Review #2

- Analyze views→clicks→subs funnel; document top 3 learnings.
- Adjust prompts/styles for Week 3; prepare 7■day queue.

Day 15 – New Content Type

- Add voiceover or POV script to one short (authenticity boost).
- Post 2 items; record retention and saves.

Day 16 – Auto■Replies

- Draft 5 reply templates for common DMs; save time daily.
- Post 2 items; prioritize meaningful replies.

Day 17 – AMA / Q&A;

- Run a Q&A; in one community; answer with short clips or carousels.
- Pin your best answer; link to paywall.

Day 18 – Menu of Requests

- Publish a ‘special requests’ menu (clear boundaries).
- Post 2 items; invite suggestions (non■explicit).

Day 19 – Testimonials

- Collect 3 social proofs (blur names if needed) to use in captions.
- Post 2 items; add ‘Loved by…’ line in bio.

Day 20 – Batch Day #2

- Produce 25–40 images; shortlist 15; cut 6 new shorts.
- Schedule next 7 days; tighten captions.

Day 21 – Weekly Review #3

- Compute conversion rate (subs/clicks); identify best hook & look.
- Plan Mini■Collection #2 themes.

Day 22 – Mini■Collection #2

- Release 12–15 piece themed set behind paywall; update banner.
- Create 2 teasers + 1 story post; emphasize scarcity.

Day 23 – Collab / Shoutout

- DM 5 micro■pages for mutual shoutouts (same niche).
- Post 2 items; tag partners if applicable.

Day 24 – Highlights & Guide

- Create IG Highlights / Reddit megathread linking your best content.
- Write a simple ‘How I create’ post (non■technical, curiosity builder).

Day 25 – Referral Nudge

- Offer a small perk for referrals (bonus image set after 2 referrals).
- Post 2 items; announce perk.

Day 26 – Optimize Top 10%

- Identify top 10% of posts; remake 3 with upgraded hooks & thumbs.
- Post 2 items; watch CTR & retention.

Day 27 – Second Persona Prep (Optional)

- Brainstorm second niche; create 5 test prompts for a new look.
- Keep main persona posting daily.

Day 28 – Mini■Audit

- Review 4■week stats; document repeatable patterns.
- List 3 constraints to fix next month (time, prompts, funnel gaps).

Day 29 – Systemize

- Turn daily tasks into checklists; create reusable caption bank (20 lines).
- Outline a 60■day runway with two drops/month.

Day 30 – Level■Up Plan

- Decide: push main persona harder or launch persona #2.
- Set 30/60/90■day goals: posting cadence, follower targets, revenue milestones.

Tools & Tips

- Image Gen: Stable Diffusion + ComfyUI (control & cost), or MidJourney/Leonardo (speed).
- Video: CapCut for quick shorts; add 0.5–1.0 sec hook before main visual.
- Captions: Use AI to draft; keep tone short, curious, with 1 clear CTA.
- Scheduling: Buffer/Later; or manual if accounts are new and sensitive.
- Tracking: Simple Google Sheet for posts, clicks, subs; review weekly.

Brand Colors: Burgundy #730C18 • Deep Teal #004D4D • Gold #F4B942

Aim for progress, not perfection. Launch now, refine daily, and keep the funnel clean.
